Chairman announced that the conference has received one invitation at present. Then he asked the Convenor of Credentials and Elections Committee to report.

7. Report of Convenor of Credentials and Elections Committee

W6ROD said he will report later because his committee has not yet completed the work.

Chairman noted and moved to Agenda Item 8.

8. Adoption of Agenda

8.1 Adoption of Agenda

PIARA asked the Secretary to pass the lawyer's letter that was previously handed to the Secretary at the Delegates' Meeting by the PIARA delegate, to be passed on to the Conference Chairman now that a Chairman was appointed.

Secretary handed the letter to the Conference Chairman.

FARA proposed to start the plenary with discussion on Docs 04/XII/033, 034 and 067 (for Agenda Item 14).

SARTS asked that because Docs 033 and 034 are complicated, these should be discussed by the specialists in the Conference.

NZART suggested to form a Steering Committee under Clause 5.6 of General Regulations.

PIARA said that the action taken by Directors and the Secretary was not allowed by the constitution of IARU or IARU Region 3 and was a social crime. He added that this issue is ready to bring before the court in Taipei.

ARSI said that this issue should be handled by a special committee, if not so, all the time of plenary meeting will be consumed by this issue. We are not a judicial organization. Such a discussion should not be opened. We should handle this issue based on the spirit of our hobby and friendships. (Applauded.)

KARL proposed that Docs 067, 033 and 034 should be studied by the committee suggested by NZART, or by the Directors, in the time of one year.

FARA said that Doc 067 is a protest by PIARA to the actions taken by Directors which have exceeded the Directors' authority.

NZART as point of order, proposed to handle these documents, together with the lawyer's letters, under clause 5.6 of General Regulations and asked to report back to the plenary on Friday.

Chairman expressed his idea to handle the documents and letters by a committee.

Secretary said the name of the committee should be "Special Committee" because the Steering Committee of clause 5.6 was defined for a different function.

FARA requested that those documents should be discussed this afternoon and the lawyer's letters

might be taken up later.

Chairman said that that would be the committee's decision.

PIARA said that the issue is a social crime, adding that the circular G/02/04T should not be distributed by Directors. So, this issue should be discussed immediately. He also noted we are in the organizing of a hobby, proposing to handle the issue by the committee first and report back to the Conference and adding that the lawyer's letters should be filed, too.

Chairman moved to the next Agenda Item 8.2.

8.2 Conference Proceedings

Chairman proposed to form two Working Groups (WGs) to handle the work of the Conference within the limited time and called for volunteers to be the convenors. He appointed the following convenors upon response from the floor.

WG-1 (Policy Matters): Convenor: Mr. Terry Carrell, ZL3QL
WG-2 (Operational and Technical Matters): Convenor: Mr. Ray Gerrard, HS0ZDZ

Secretary confirmed the following Societies to participate to Working Groups 1 and/or 2.

The following is recommended to Member Societies.

1. Noting that the amateur service, being a group of individuals trained in electronics and radio communications techniques, is able to self assess stations in the amateur service to ensure that they comply with national EMR standards.
2. That Member Societies should lobby their respective administrations to adopt current international standards in lieu of developing their own where administrations decide to pursue an EMR standards regime. Further, Member Societies should lobby for the EMR self-assessment system to be employed for Amateur stations with their national administrations when the issue arises.
3. That Member Societies should look to facilitating education programs for their members on the implications of EMR. Societies need to work to place themselves in a position to respond positively and proactively to inquiries from the public and national administrations if asked for input or comment about EMR issues and the amateur service.
4. Further, education materials for amateurs about EMR issues should be developed, and where it is appropriate, additions to the exam syllabus for an amateur licence should be made to cover EMR matters. The Directors are requested to investigate and implement the most effective way of dealing with this." (Darwin Conference, Motion 11-AN/XI)

- RAST requested that the observation 4 in the report has ambiguity, so some manipulation will be needed by the delegates and stressing that the fundamental issue for the constitutional amendment should be discussed in this session.

He stated that there should be a run-off voting to VU2RCR and ZL2AZ for the last director.
He handed the ballot sheet for run-off to all delegates and proxy holders, then collected them after a short period for completing them.

Chairman moved to Agenda Item 12 and invited the Convenor of the Finance Committee to report.

- 13. Finance of IARU Region 3**
- 13.1 Financial Report by the Secretary**
- 13.2 Triennial Budget for Fiscal Years 2004/05, 2005/06 and 2006/07**
- 13.4 Membership Subscription**

VU2RCR reported those items in one lump by Doc 077 that the committee met Wednesday 18 afternoon to receive the financial report from the Secretary of Region 3 and to discuss the draft budget and subscription for the next three years.

The Finance Committee confirmed that the financial condition of Region 3 is healthy, reviewed the draft budget proposed by the Secretary and agreed it with one reduction of US\$2000 and gratefully accepted a no change proposal for membership subscription.

He proposed the triennial budget for FY2004/05, 2005/06 and 2006/07 for adoption.

Chairman brought the proposal for discussion.

(There was no question or comment. On motion of FARA, seconded by HARTS, it was moved.)

Chairman declared, after confirming a show of hands, that the proposal from Finance committee was adopted unanimously.

He stated that Agenda Item 14 (Region 3 Constitution) was already finished.

RAST repeated their question concerning Special Committee report, whether Region 3 can submit proposals to the ad-hoc IARU working group.

VK3ADW answered that IARU AC is transparent.

JJ1OEY said Region 3 is represented by Directors, and any proposal opinion is welcomed by Directors.

RAST confirmed that any member Society can submit proposals to Directors.

PIARA said that proposal 5 (Qualification) in Doc 04/XII/034 still remained, but proposal 4 in it was withdrawn.

VK2BPN said Doc 04/XII/033 will be treated by the Directors, stressing Directors will follow the recommendation in Special Committee report.

RAST disagreed with VK2BPN.

FARA said that Special Committee recommended to set up an ad-hoc working group, so Member Societies and Directors should work with the group.

Region 2 said that many AC members are attending this Conference and will take the substantial part in the working group.

9V1UV said that Special Committee says to AC the matter of the IARU constitution. What RAST

wants to say will be Region 3 Constitution. Those two are different issues.

RAST agreed with 9V1UV.

FARA said that Doc 034 is very complex document. However, any error in Region 3 should be corrected not by an ad-hoc working group, which will be slow pace so it should be worked carefully.

RAST requested to receive the conference proceedings.

NZART said that the idea of Special Committee is very open. The initial fact-finding will be the differences and complexities among constitutions. It will be taken up not by the AC itself but by an ad-hoc working group. Any result will be submitted to Region 3 Conference, but it might take 20 years.

RAST requested that the work should be done democratically.

Chairman closed discussion and moved to Agenda Item 15.

He allowed the Convenor of Credentials and Elections committee to speak and invited the Convenor to report the result of the run-off.

16. Any Other Business

KARL asked how to access the new 40m allocation of WRC-03 before March 2009.

Region 1 answered that there are a number of countries discussing this matter in the past months and said to ask RSGB for the details.

VK3ADW informed that Australia and New Zealand have already had the full 300 kHz from 1997, but secondary use.

K1ZZ said that, in the US, it should be submitted as a petition to the FCC based on the provision 4.4 in Article 4 of ITU-RR.

WIA said that WIA is now studying how to access it if the Australian Communications Authority (ACA) decided to open the new allocation on the date of March 2009.

K1ZZ reminded that if there are any reported harmful interference reports from early access operation, it might be ceased or limited.

(At 16:51 hrs, Directors left the conference room for their short meeting in order to nominate Chairman in accordance with Article 27A of Region 3 Constitution.)

- HARTS surprised and disappointed, expressing a lot of effort had been expended by WG3, stressing there was no dissent within the WG3 meetings.
- ARSI clarified that ARSI agreed with the resolution to change the Constitution apart from the quorum issue. ARSI voted against the motion, but would vote for it if amended.

- He presented the draft budget and subscription, Doc. **06/XIII/075**, with his recommendation for its adoption.

(On motion of WIA seconded by NZART, it was moved.)

Chairman declared, after confirming a show of hands, that the motion was carried unanimously.
He then resumed on Constitutional matters with consideration to review again the changes proposed.

14. Constitution of IARU Region 3 – Proposals for Change, if any (Revisit)

ARSI motioned that “The items of the WG-3 resolution be split up and discussed on separately, clause by clause”.

Chairman asked if it could be done more efficiently, rather than each clause separately.

PIARA left the conference meeting room in protest that the constitutional changes were to be discussed again, despite being lost by voting on an earlier motion.

(At this point in time, 12 Societies were present and 4 Societies held proxies for a total of 16 Member Societies represented.)

VK3KI clarified with ARSI its position on two deleted clauses

NZART and JARL
sought clarifications for which clause or clauses were now to be deleted from the resolution.

ARSI replied that their proposal was to delete the words “in accordance with clauses 38D to 38G” in the last line of item 2 and to delete item 11 entirely.

Chairman further clarified what was now before the conference to be discussed.

NZART motioned a further amendment to exclude the remaining “quorum” clause in item 2 of the resolution. This will result in to delete item 2 entirely together with the proposal of ARSI.
